

LavaPort-Plus

PCI Bus Dual 16650 Serial PLUS Enhanced Parallel I/O Accelerator Board

Features & Benefits

- Adds two 16650 UART serial ports and one EPP parallel port to PCI-equipped PCs
- Each serial port (one 9-pin & one 25-pin) is capable of a maximum data throughput rate up to 460.8 kbps
- Enhanced Parallel Port (EPP) incorporates Lava's PCI Parallel Port technology — capable of data throughput rates up to 3x faster than ISA EPP ports
- Each serial port includes integrated 32-byte FIFO buffers with software configurable Rx/Tx triggers, 4x clock, and on-board flow control to guarantee errorless data transmission even at top speed
- Both serial ports share one IRQ — saves valuable resources for other expansion cards
- Easy Plug and Play installation – automatically selects next available IRQ and I/O addresses
- Compatible with RS-232 serial peripherals including 56K and ISDN modems, PDAs, digital cameras, bar-code scanners, and UPSes
- Includes "Lava Com Port Redirect" and "Lava Modem Speed Set" utility software for easy configuration of 230.4 kbps capable external modems
- Ships with drivers for Windows 3.x/95/98/ME/NT 4.0
- Compliant with PCI Specification 2.1
- Lava Lifetime Warranty

Connectors

- One DB-9 male RS-232
