Lava SPH-USB

The compact, lightweight, and powerful Lava SPH-USB is a perfect travel companion for on-the-road computer users. The palm-sized, 18 oz external hub serves as a convenient docking station for connecting peripherals to a laptop or a desktop computer. The SPH-USB connects in a snap to a system's USB port using the supplied USB cable, instantly adding three USB 1.1 downstream ports, one bi-directional parallel port, and one 16550 UART serial port. The three USB ports can be used for any USB peripheral, the parallel port for connecting a printer or other parallel peripheral, and the serial port for a PDA, or any other serial device.

This Plug and Play, powered hub can be connected and disconnected without powering down the computer. Users can leave all peripherals attached to the hub, disconnect a notebook from it, and leave. Upon returning, users simply have to plug in again for instant access to all their devices.

The Lava SPH-USB supports daisy-chaining. USB daisy-chaining allows up to 127 peripherals and hubs to form an interconnected network.

Operating System Support:

Windows® 98SE/Me/2000/XP

Product Details:

Warranty: Lava Lifetime Warranty

Dimensions: 3" x 5.25" x 0.75" (7.5 cm x 13.3 cm x 2.0 cm)

Shipping weight: 18.35 oz / 520 g

Feature	Benefit
<ul style="list-style-type: none"> External hub with three USB 1.1 downstream ports, one parallel port, and one serial port 	<ul style="list-style-type: none"> Does not require opening a computer to add extra ports Connects a laptop or desktop PC to devices with one cable connection Provides network connection without a NIC (Network Interface Card), when using a USB-to-Ethernet adapter
<ul style="list-style-type: none"> USB 1.1 compatible 	<ul style="list-style-type: none"> Ideal for any USB 1.1 peripheral: digital camera, scanner, printer, Zip™ drive, modem, tape drive, CD-RW drive, DVD, etc. Supports throughput rates of up to 12 Mbps for fast and efficient data transfers Supports daisy-chaining: enables users to connect up to 127 devices Supports hot-plugging: devices can be plugged in or unplugged without powering down the computer
<ul style="list-style-type: none"> Carries one serial port 	<ul style="list-style-type: none"> Ideal for any serial peripheral: external modem, printer, digital camera, handheld/PDA, etc. Supports high-speed transfer rate of up to 115.2 kbps for fast and efficient data transfers
<ul style="list-style-type: none"> Carries one parallel port 	<ul style="list-style-type: none"> Ideal for any parallel port peripheral: printer, tape drive, scanner, etc.
<ul style="list-style-type: none"> 2.0 Amp power supply 	<ul style="list-style-type: none"> Delivers true 500mA per-port downstream current on USB ports
<ul style="list-style-type: none"> Compact and lightweight 	<ul style="list-style-type: none"> Convenient to carry and store
